

Labor & Material Savings Compression EMT

Kwik-Fit® & Kwik-Fit® Compression EMT
Available in sizes 1 1/4 (35) - 4 (103)

- Fast, two-step installation
- Material and labor savings up to 50% *
- No couplings to purchase, inventory or install
- Hot galvanized steel using patented inline Flo-Coat® process for long lasting exterior protection
- E-Z Pull® interior coating provides a smooth raceway for faster, easier wire pulling
- Excellent mechanical protection for conductors
- Ductility for faster and easier bending

* Visit www.kwikcalculator.com to estimate your Material and Labor Savings by using Kwik-Fit® products

Harsh & Hazardous LED Lighting

Killark manufactures a full-line of Harsh and Hazardous LED lighting products, including Linear, Flood, High Bay, Low Bay, and Emergency.

- Made for the extreme environments and available in a variety of housing types for virtually any application
- Long-life energy and labor-saving LED technology
- Cone-shaped LED bases allow for more uplight and wall wash, providing smooth lighting output for even illumination. This helps eliminate the "Cave Effect"

Wall Pack Luminaires

The energy savings, long life and easy-to-install design of the TWH LED make it the smart choice for building-mounted doorway and pathway illumination for nearly any facility.

- Replaces up to 400W MH, saves 80% energy
- Modular design allows for ease of maintenance
- Housing is completely sealed against moisture and environmental contaminants
