

Join Us for Drives Headquarters 2019!

**Free
Class!**

Join us to learn how Schaedler Yesco and Rockwell Automation can help you turn challenges into advantages with PowerFlex® Drives!

This 4-hour session will review common challenges, products and systems designed to alleviate those challenges, installation considerations, using your drive for data analytics, standard startup configuration, and more!

** Space is limited to 20 seats per session.*

You'll leave the session understanding of how Rockwell Automation Drives can:

- Simplify the engineering design process
- Minimize unscheduled downtime
- Optimize maintenance and operating costs
- Integrate into Smart Plant designs

Agenda will include:

- Hands-on labs: PowerFlex® 520 and 750 Series configuration and programming
- Demonstration of FactoryTalk® Analytics™ (be sure to download the App prior to attending)**
- Configuration of PowerFlex® Dynamic Braking
- Installation considerations discussion
- Rockwell power quality offerings including DySC® and i-Sense®

*** Please download the FactoryTalk® TeamONE™ app. Available for both Apple and Android.*
